

## The Bike Experience - Safeguarding Policy

Updated 31/10/22

### Purpose

The purpose of this policy is to protect people, particularly at-risk adults and beneficiaries of assistance, from any harm that may be caused due to their coming into contact with The Bike Experience. This includes harm arising from:

- The conduct of staff or personnel associated with The Bike Experience
- The design and implementation of The Bike Experience's programmes and activities

The policy lays out the commitments made by The Bike Experience and informs staff and associated personnel of their responsibilities in relation to safeguarding.

### What is safeguarding?

In the UK, safeguarding means protecting peoples' health, wellbeing, and human rights, and enabling them to live free from harm, abuse and neglect.

In our sector, we understand it to mean protecting people, including children and at risk adults, from harm that arises from coming into contact with our staff or programs.

### Scope

- All employed and freelance staff contracted by The Bike Experience
- Associated personnel whilst engaged with work or visits related to The Bike Experience, including but not limited to the following: consultants; volunteers; contractors, journalists, celebrities, and politicians

### Policy Statement

The Bike Experience believes that everyone we come into contact with, regardless of age, gender identity, disability, sexual orientation or ethnic origin has the right to be protected from all forms of harm, abuse, neglect and exploitation. The Bike Experience will not tolerate abuse and exploitation by staff or associated personnel.

This policy will address adult safeguarding, and protection from sexual exploitation and abuse. The Bike Experience commits to addressing safeguarding throughout its work, through the three pillars of prevention, reporting and response.

### Prevention

The Bike Experience will:

- Ensure all staff have access to, are familiar with, and know their responsibilities within this policy
- Ensure it operates a 'safer recruitment approach when recruiting full-time staff and volunteers, including using an application form, interview and taking references and will undertake a DBS check for every member of full-time staff
- Ensure all full-time staff attend regular safeguarding training to ensure they are clear about the policy and procedures in place and how to act in the event of a safeguarding concern
- Design and undertake all its programs and activities in a way that protects people from any risk of harm that may arise from their coming into contact with The Bike Experience. This includes the way in which information about individuals in our programmes is gathered and communicated
- Implement stringent safeguarding procedures when managing and deploying staff and associated personnel
- Ensure all staff receive training on safeguarding at a level commensurate with their role in the organization
- Follow up on reports of safeguarding concerns promptly and according to due process

### **Staff responsibilities**

The Bike Experience staff and associated personnel must not:

- Sexually abuse or exploit at risk adults
- Subject an at-risk adult to physical, emotional or psychological abuse, or neglect

### **Protection from sexual exploitation and abuse**

The Bike Experience staff and associated personnel must not:

- Exchange money, employment, goods or services for sexual activity. This includes any exchange of assistance that is due to beneficiaries
- Engage in any sexual relationships with beneficiaries, since they are based on inherently unequal power dynamics

Additionally, The Bike Experience staff and associated personnel are obliged to:

- Contribute to creating and maintaining an environment that prevents safeguarding violations and promotes the implementation of the Safeguarding Policy
- Report any concerns or suspicions regarding safeguarding violations by a staff member or associated personnel to the appropriate staff member

### **Enabling reports**

The Bike Experience will ensure that safe, appropriate, accessible means of reporting safeguarding concerns are made available to staff and the communities we work with.

The Bike Experience will also accept complaints from external sources such as members of the public, partners and official bodies.

Staff members who have a complaint or concern relating to safeguarding should report it immediately to the Designated Safeguarding officer (DSO) Talan Skeels-Piggins. If the staff member does not feel comfortable reporting to the DSO (for example if they feel that the report will not be taken seriously, or if that person is implicated in the concern) they may report to any other appropriate staff member.

## Response

The Bike Experience will follow up safeguarding reports and concerns according to this policy and the safeguarding procedure, and legal and statutory obligations.

The Bike Experience will apply appropriate disciplinary measures to staff or associated personnel found in breach of policy.

The Bike Experience will offer support to survivors of harm caused by staff or associated personnel, regardless of whether a formal internal response is carried out (such as an internal investigation). Decisions regarding support will be led by the survivor.

## Confidentiality

It is essential that confidentiality is maintained at all stages of the process when dealing with safeguarding concerns. Information relating to the concern and subsequent case management should be shared on a need to know basis only, and should be kept secure at all times.

## Staff Training

All full-time staff must attend Adult Safeguarding training every 2 years.

## Definitions

### **Safeguarding**

In the UK, safeguarding means protecting people's health, wellbeing and human rights, and enabling them to live free from harm, abuse and neglect. We understand it to mean protecting people, including at risk adults, from harm that arises from coming into contact with our staff or programmes. Safeguarding means taking all reasonable steps to prevent harm, particularly sexual exploitation, abuse and harassment from occurring; to protect people, especially vulnerable adults, from that harm; and to respond appropriately when harm does occur.

This definition draws from our values and principles and shapes our culture. It pays specific attention to preventing and responding to harm from any potential, actual or attempted abuse of power, trust, or vulnerability, especially for sexual purposes.

Safeguarding applies consistently and without exception across our programme, partners and staff. It requires proactively identifying, preventing and guarding against all risks of harm, exploitation and abuse and having mature, accountable and transparent systems for response, reporting and learning when risks materialise. Those systems must be survivor-centred and also protect those accused until proven guilty. Safeguarding puts beneficiaries and affected persons at the centre of all we do.

### **Sexual abuse**

The term 'sexual abuse' means the actual or threatened physical intrusion of a sexual nature, whether by force or under unequal or coercive conditions.

### **Sexual exploitation**

The term 'sexual exploitation' means any actual or attempted abuse of a position of vulnerability, differential power, or trust, for sexual purposes, including, but not limited to, profiting monetarily, socially or politically from the sexual exploitation of another. This definition includes human trafficking and modern slavery.

### **Survivor**

The person who has been abused or exploited. The term 'survivor' is often used in preference to 'victim' as it implies strength, resilience and the capacity to survive, however it is the individual's choice how they wish to identify themselves.

### **At risk adult**

Sometimes also referred to as vulnerable adult. A person who is or may be in need of care by reason of mental or other disability, age or illness; and who is or may be unable to take care of him or herself, or unable to protect him or herself against significant harm or exploitation.

# How to report a safeguarding concern - Safeguarding Procedures

## 1. Report is received

1. Reports can reach the organisation through various routes. This may be in a structured format such as a letter, e-mail, text or message on social media. It may also be in the form of informal discussion or rumour. If a staff member hears something in an informal discussion or chat that they think is a safeguarding concern, they should report this to the appropriate staff member in their organisation.
  2. If a safeguarding concern is disclosed directly to a member of staff, the person receiving the report should bear the following in mind:
    - Listen
    - Empathise with the person
    - Ask who, when, where, what but not why
    - Repeat/ check your understanding of the situation
    - Report to the appropriate staff member (see below)
  3. The person receiving the report should then document the following information, using an Incident Report Form:
    - Name of person making report
    - Name(s) of alleged survivor(s) of safeguarding incident(s) if different from above
    - Name(s) of alleged perpetrator(s)
    - Description of incident(s)
    - Dates(s), times(s) and location(s) of incident
- 1.1. The person receiving the report should then forward this information to the Designated Safeguarding Officer (DSO) or CEO within 24 hours.
  - 1.2. Due to the sensitive nature of safeguarding concerns, confidentiality must be maintained during all stages of the reporting process, and information shared on a limited 'need to know' basis only. This includes senior management who might otherwise be apprised of a serious incident.
  - 1.3. If the reporting staff member is not satisfied that the organisation is appropriately addressing the report, they have a right to escalate the report, either up the management line, to the Board of Trustees or to an external statutory body. The staff member will be protected against any negative repercussions as a result of this report.

## **2. Assess how to proceed with the report**

2.1 Appoint a Decision Maker for handling this report

2.2 Determine whether it is possible to take this report forward

- Does the reported incident(s) represent a breach of safeguarding policy?
- Is there sufficient information to follow up this report?

2.1. If there is insufficient information to follow up the report, and no way to ascertain this information (for example if the person making the report did not leave contact details), the report should be filed in case it can be of use in the future, and look at any wider lesson learning we can take forward.

2.2. If the report raises any concerns relating to persons under the age of 18, seek expert advice immediately. If at any point in the process of responding to the report (for example during an investigation) it becomes apparent that anyone involved is under the age of 18, the Decision Maker should be immediately informed and should seek expert advice before proceeding.

2.3. If the decision is made to take the report forward, ensure that you have the relevant expertise and capacity to manage a safeguarding case. If this expertise is not available in-house, seek immediate assistance

2.4. Clarify what, how and with whom information will be shared relating to this case. Confidentiality should be maintained at all times, and information shared on a need-to-know basis only. Decide which information needs to be shared with which stakeholder – information needs may be different.

2.5. Check your obligations on informing relevant bodies when you receive a safeguarding report. These include (but are not limited to):

- Funding organisations
- Umbrella bodies/networks
- Statutory bodies (such as the Charity Commission in the UK)

Some of these may require you to inform them when you receive a report, others may require information on completion of the case, or annual top-line information on cases. When submitting information to any of these bodies, think through the confidentiality implications very carefully.

## **3. Appoint roles and responsibilities for case management**

3.1 Appoint the Decision Maker for the case who is either a senior staff member, or Trustee, not implicated or involved in the case in any way

3.2 If the report alleges a serious safeguarding violation, you may wish to hold a case conference. This should include:

- Decision Maker
- Person who received the report (such as the DSM, or CEO)
- HR manager
- Safeguarding adviser (or equivalent) if there is one

The case conference should decide the next steps to take, including any protection concerns and support needs for the survivor and other stakeholders (see below).

#### 4. Provide support to survivor where needed/requested

4.1 Provide appropriate support to survivor(s) of safeguarding incidents. NB this should be provided as a duty of care even if the report has not yet been investigated. Support could include (but is not limited to)

- Psychosocial care or counselling
- Medical assistance
- Protection or security assistance

4.2 All decision making or support should be led by the survivor.

#### 5. Assess any protection or security risks to stakeholders

For reports relating to serious incidents: undertake an immediate risk assessment to determine whether there are any current or potential risks to any stakeholders involved in the case, and develop a mitigation plan if required.

Continue to update the risk assessment and plan on a regular basis throughout and after the case as required.

#### 6. Decide on next steps

6.1 The Decision Maker decides the next steps. These could be:

- No further action (for example if there is insufficient information to follow up, or the report refers to incidents outside the organisation's remit)
- Investigation is required to gather further information
- Immediate disciplinary action if no further information needed
- Referral to relevant authorities

6.2 If the report concerns associated personnel (for example contractors, consultants or suppliers), the decision making process will be different. Although associated personnel are not staff members, we have a duty of care to protect anyone who comes into contact with any aspect of our programme from harm. We cannot follow disciplinary processes with individuals outside our

organisation, however decisions may be made for example to terminate a contract with a supplier based on the actions of their staff.

- 6.3 If an investigation is required and the organisation does not have internal capacity, identify resources to conduct the investigation. Determine which budget this will be covered by.

## 7. Manage investigation if required

- 7.1 Refer to the organisation's procedures for investigating breaches of policy. If these do not cover safeguarding investigations, use external guidelines for investigating safeguarding reports, such as the CHS Alliance Guidelines for Investigations.

## 8. Make decision on outcome of investigation report

- 8.1 The Decision Maker makes a decision based on the information provided in the investigation report. Decisions relating to the Subject of Concern should be made in accordance with existing policies and procedures for staff misconduct.
- 8.2 If at this or any stage in the process criminal activity is suspected, the case should be referred to the relevant authorities unless this may pose a risk to anyone involved in the case. In this case, the Decision Maker together with other senior staff will need to decide how to proceed. This decision should be made bearing in mind a risk assessment of potential protection risks to all concerned, including the survivor and the Subject of Concern.

## 9. Conclude the case

- 9.1 Document all decisions made resulting from the case clearly and confidentially.
- 9.2 Store all information relating to the case confidentially, and in accordance with local data protection law.
- 9.3 Record anonymised data relating to the case to feed into organisational reporting requirements (eg. serious incident reporting to Board, safeguarding reporting to donors), and to feed into learning for dealing with future cases.
